

MICHIGAN CAREER EDUCATION CONFERENCE

January 27-29, 2019

Amway Grand Plaza Hotel, Grand Rapids

www.michigancareerconference.org

STATE OF MICHIGAN
DEPARTMENT OF EDUCATION
LANSING

GRETCHEN WHITMER
GOVERNOR

SHEILA A. ALLES
INTERIM STATE SUPERINTENDENT

Dear Conference Participants:

It is my honor to welcome you on behalf of the Office of Career and Technical Education in the Michigan Department of Education, to the 2019 Michigan Career Education Conference. Thank you to the Conference Planning Committee for the excellent program you have prepared.

Having attended this conference over the years I can honestly say that the time you spend with us will have a positive impact on your professional growth and development. It is my hope that you take the knowledge and resources back to your agencies to make a positive impact on student learning. I know firsthand the valuable relationships which can be developed between business and industry, secondary and postsecondary, counselors, teachers, and administrators, as well as your colleagues from around the state. I hope you take advantage of the many opportunities to learn, grow, and network that this conference has to offer.

Congratulations to the College and Career Readiness and the CTE Outstanding Program Excellence in Practice Award winners for their outstanding programs which exemplify "best practices" in preparing our students for postsecondary education and professional and technical careers.

Please join me in welcoming our Opening Keynote Speaker, Dwayne D. Williams, Tier 1 Educational Coaching, and our Closing Keynote Speaker, Brooks Harper, Brooks Harper Enterprises.

I hope that you enjoy yourselves here at the conference and find it a rewarding professional development experience.

Sincerely,

Brian L. Pyles, Ph.D., Director
Office of Career and Technical Education

STATE BOARD OF EDUCATION

CASANDRA E. ULBRICH – PRESIDENT • PAMELA PUGH – VICE PRESIDENT
MICHELLE FECTEAU – SECRETARY • TOM MCMILLIN – TREASURER
TIFFANY D. TILLEY – NASBE DELEGATE • JUDITH PRITCHETT
LUPE RAMOS-MONTIGNY • NIKKI SNYDER

608 WEST ALLEGAN STREET • P.O. BOX 30008 • LANSING, MICHIGAN 48909

Exhibitor Drawing

Don't Miss It!

Participation is Easy:

- Each conference attendee is given six (6) drawing tickets when they sign-in at the conference registration desk.
- While you are visiting the exhibitor area throughout the conference, and view the latest educational products and services, place a ticket in the “bucket” next to the item you would like to enter to win.
- Only the drawing tickets given at sign-in can be used to enter a drawing.
- You may put all your tickets in one bucket or distribute them between the prizes you like by 11:00 am on Tuesday.
- The drawings will be held at the end of the closing session on Tuesday.
- You must be present to win.

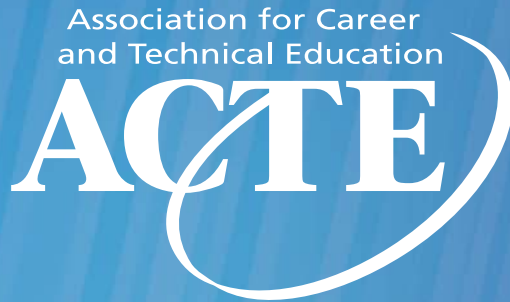

SAVE THE DATE

2020 Michigan Career Education Conference

January 26-28, 2020

**Amway Grand Plaza Hotel
Grand Rapids, Michigan**

Connecting Education and Careers

- + **Professional Development**—High quality opportunities to enrich your curriculum and advance your career.
- + **Networking**—ACTE will help you create a network for sharing and exchanging ideas.
- + **ACTE's CareerTech VISION**—The largest annual gathering of CTE educators, featuring hundreds of sessions and a comprehensive Expo.
- + **Techniques Magazine**—ACTE's award-winning magazine features articles that delve into CTE trends, case studies and in-classroom innovations.
- + **Career Tech Update and STEM SmartBrief**—Tightly written summaries on the most important news affecting the CTE profession and STEM-related fields delivered directly to your inbox.
- + **Professional Recognition**—The Excellence Awards recognize individuals who have made extraordinary contributions to CTE.
- + **Advocacy and National Policy Seminar**—ACTE advocates, analyzes and informs policymakers, members and the public about the impact of legislation and funding decisions affecting CTE. Our National Policy Seminar brings 400+ professionals to tell policymakers that CTE programs provide the skills students need to thrive in today's economy.
- + **Member Insurance**—Complimentary common carrier accidental death and dismemberment insurance, and discounted rates on professional liability and other insurance offerings.
- + **Discounts on ACTE Products and Services**—Member-exclusive discounts to all ACTE events, CTE publications, resources, and products.
- + **Invaluable Career Resources**—ACTE's online job bank helps you find new and exciting work or the perfect candidate.

pathfinder

Michigan's New Career Exploration Tool

Michigan Talent Investment Agency is excited to introduce pathfinder - a one-of-a-kind career exploration tool that's designed to increase the number of Michigan residents with high-quality, in-demand degrees and credentials. Pathfinder provides real-time current Michigan labor market information to students, their parents, guidance staff and all job seekers to help them make informed choices about educational and career options, as well as guides the creation of educational development plans.

With pathfinder, you can:

- Search for exciting and interesting careers
- Discover schools in Michigan that offer programs of interest
- See detailed job projections, annual openings, growth potential, salaries for Michigan
- View Michigan's top careers

Word on the street

Feedback from Michigan students, parents, counselors and job seekers demonstrates a real interest and excitement to use the new pathfinder tool and get started on a path.

I AM A STUDENT

"The website is very easy to use. I was able to find the career I want and the schools that can help me get ready for it. I am excited to use this to explore other careers in Michigan."

I AM A PARENT

"Having an 11th-grader this year, I can't wait for this site to be made public! I believe my daughter and I would have fun exploring different educational avenues. This site is great and extremely informative. Thank you for this opportunity!"

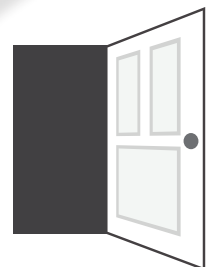

I AM A COUNSELOR

"Kids want to know what jobs they are going to be able to get right away out of college and aren't hard to get - like what jobs are going to be in high demand. This will help them learn what path they need to take to get those jobs."

I AM A JOB SEEKER

"Having the most current information about jobs available right now is fantastic. I was also able to find information on the training I would need for different careers and wage projections for those careers."

Open the door
to new possibilities!

This program is accurate as of press time. Any program updates and/or announcements will be made available to attendees through announcements at general sessions.

Session seating is filled on a first-come-first-serve basis. For the safety of all attendees, we must observe maximum capacity regulations in place by the conference venue.

General Information

Name Badges

Michigan Career Education Conference attendee/exhibitor badges must be worn at all times during the scheduled conference hours, not only as a courtesy to other registrants, but as an indication that your registration has been completed. Name badges are required for entry into all sessions and meal events during the conference.

Color Guard

Our appreciation to the Mecosta-Osceola Career Center Honor Guard, instructed by Officer William Saunders, Joy Paquette, Sargent Mark Danielson, and Mike Harvell, who will open the conference with the Presentation of Colors and Pledge of Allegiance.

Evaluations

Your evaluation of the breakout sessions and overall conference is vital for next year's conference planning. Breakout session evaluations will be distributed by hosts at each session. Please complete a form for each session that you attend and return it to the host. You will receive an email containing an overall conference evaluation to be completed online after the conference. Please complete the survey so that your feedback and suggestions may be used for future planning.

***Please note:** *If you sign-up for SCECHs you will receive an additional survey via email that must be completed as part of the process to earn SCECHs.*

Exhibit Hours

Exhibitors are located in the Center Concourse and Crown Foyer. Exhibiting hours will be as follows:

Sunday

4:00 pm – 6:30 pm

Monday

7:30 am – 4:30 pm

Tuesday

7:00 am – 11:30 am

Local Area Information

Experience Grand Rapids has information about local area attractions. Copies are available at Experience Grand Rapids's exhibit table located in the Center Concourse.

Registration Information

The Conference Registration desk is located in the Center Concourse. A schedule for Conference Registration is provided below. Lost and found is also located at the Conference Registration.

Sunday

3:00 pm – 7:00 pm

Monday

7:30 am – 4:30 pm

Tuesday

7:00 am – 11:30 am

Recording, Streaming, and Photography Policies

All presentations and associated materials are the presenters' intellectual property – you must obtain the presenters' permission to record or stream their session or activity in any medium. Recording/streaming for commercial purposes is allowed only with prior written permission from both Ferris State University and the presenter(s).

SCECH Information

There will be one to ten clock hours available at the conference. To receive ten hours, you must attend all sessions in full. Applications for State Continuing Education Clock Hours will be available at the Conference Registration desk located in the Center Concourse.

If you choose to apply for SCECHs, there are a few important steps involved with obtaining the SCECHs.

1. You must have completed the SCECH application with your PIC number, and pay the \$10.00 application fee **prior to the start** of the conference.
2. You must attend a minimum of 1 session as the Michigan Career Education Conference provides a variable offering of 1-10 SCECHs. If presenters release early, you have not met the time block submitted. Every effort is made to alert the presenter of this. For the Michigan Career Education Conference, this means entering a breakout session on time and staying in the same session for the entire duration of that time period.
3. You must have the host sign you out at the conclusion of each session. Lunch sessions and keynote sessions are eligible for SCECHs. There will be a monitor available in each session room to sign your sheet as you depart. The conference has several breakout sessions, and you will be provided a sheet with all session opportunities outlined. It is your responsibility to find the monitor at each session to get your form stamped/initialed when you leave the session – you must attend the entire session.
4. You will receive an email from MOECS NoReply indicating you have 30 days to complete an evaluation form for the event. If you do not complete the evaluation, you will not be awarded SCECHs, nor will you be refunded the application fee. Do not confuse the evaluation of the conference, with the survey for the SCECHs.
5. Once you have completed the evaluation, you will be able to access your unofficial transcript. This will show all SCECHs and previous SB-CEUs that you have been awarded. You can print an official transcript from your MOECS account. Your SCECHs will upload to MOECS. Please visit www.Michigan.gov/teachercert for additional information regarding SCECHs.

School Counselor License Renewal

Michigan Compiled Law (MCL) 380.1233 (7-9) was amended in 2017 requiring school counselors to complete fifty (50) professional development hours specific to college and career preparation to renew effective February 6, 2020. These hours are a part of the total required 150 hours of professional development necessary for renewal.

The hours must be accrued as follows:

- **25 hours - college preparation and selection;** and
- **25 hours - career consultation; 5 of which MUST include the exploration of military career options as it pertains to career opportunities.**

Applications for renewal submitted beginning February 6, 2020 will be required to have completed the new professional development requirement. Applications lacking the required professional development hours as specified in law will be placed on “hold” or “denied” pending completion and verification.

If you are **not** seeking to renew your School Counselor License, but attend a School Counselor categorized session you will receive General SCECH credit for the session.

SCECH Information

Locating Your PIC Number: K-12 School District Employee PIC

Your PIC can be accessed by logging into your account in the MOECS system at www.Michigan.gov/moeecs, and clicking on “Click here to go to the MOECS Login Page”. If you have never been in MOECS before, create a MOECS account by following the directions:

1. Click on “Login Assistance” in the MOECS log-in box.
2. Enter your first and last name and the last 4 digits of your social security number. MOECS will determine you do not have an account and you will be redirected to create one.
3. Go back to the MOECS log-in page and log in with your new log-in name and password assigned through MEIS.
4. Answer all of the questions through the initial creation pages, and fill in all required fields. Click “Save” once you have completed these steps.
5. Your PIC will be pulled into your MOECS account and located on your Manage Demographics page, just below your email. If it does not appear there within three days, please contact the SCECH Administrator at SCECH@Michigan.gov.

If your PIC is not in your MOECS account, and you are not an MDE certified educator or K-12 school district employee, please contact MOECSSupport@michigan.gov.

SCECH On-Site Registration Information

Please have your PIC number and email address ready to complete the SCECH Application.

Cost: \$10.00

Payment: Cash/Check*

*Please make checks payable to: Ferris State University

You must sign out of each session you attend to receive SCECHs.

Conference Sponsors

Thank You to Our 2019 Sponsors!

The Office of Career and Technical Education, Michigan Department of Education, would like to thank all of the sponsors who have helped make this event possible.

Career Education Planning District (CEPD) Council

2018 U.S. Presidential Scholars

The U.S. Presidential Scholars Program was established by President Lyndon Johnson in 1964 and has honored almost 7,500 outstanding high school seniors. In 2015 the program was expanded to recognize students who demonstrate ability and accomplishment in career and technical education (CTE).

Since the inception of the CTE component, four Michigan CTE students have been awarded the U.S. Presidential Scholar recognition. Please join us in congratulating three additional CTE students who were presented with the 2018 Presidential Scholar Medallion at an awards ceremony in Washington D.C. sponsored by the White House.

Excellence in Practice

2019 College and Career Readiness Award

The Career and College Readiness Initiative Award recognizes outstanding practices, programs, or services that demonstrate exemplary support of career/college planning for students (that include their interests, abilities, and skills), promotion of high academic expectations, and linking secondary course taking (including CTE) to prepare for postsecondary education and careers.

Oakland Schools Technical Campus Northeast Engineering and Emerging Technologies

In the Engineering and Emerging Technologies (EET) cluster, students are trained in high tech engineering technologies including virtual simulation, computerized manufacturing, rapid prototyping, and fabrication. The EET cluster is committed to delivering a quality educational system that is equitable, flexible, and continuously improving. Instructors use cutting-edge technology, innovative teaching methods, and the Michigan Talent Architecture rubric for assessing and teaching career ready work habits. EET students continue their training in programs such as the Michigan Advanced Technician Training (MAT2) and Oakland Technical Early College option.

The programs are all hands-on, intensive, and designed to prepare students with the skills necessary to successfully enter engineering and manufacturing technology careers. Since its inception in 2012, a total of 32 students from EET (an 80% acceptance rate), have entered the MAT2 program, representing an estimated \$2.4 million investment by local and global companies in EET students. Within the last five years, three female students received special State of Michigan recognition for their leadership in a nontraditional career pathway with one taking 1st place and receiving the prestigious Breaking Traditions Excellence Award.

2019 CTE Outstanding Programs Award

The Career and Technical Education Outstanding Program Award recognizes a successful, exemplary, state-approved career and technical education program that demonstrates outstanding outcomes, produces measurable results, and leads to documented success in employment or postsecondary education/training.

Mecosta Osceola Career Center The Public Safety Program

The Public Safety program at the Mecosta-Osceola Career Center (MOCC) is the only secondary corrections academy in the State of Michigan approved by the Michigan Sheriffs' Coordinating and Training Council. Students complete state required program content as juniors and enroll in one of three options as seniors: the MOCC Corrections Academy, Emergency Medical Technician-Basic, or Firefighter I & II.

Public Safety students participate in the MOCC's Transition to Success program where at-risk/special-needs 10th grade students rotate through nine CTE programs for four weeks each. Working with a certified special education teacher, these students develop the necessary skill-sets to be successful in a CTE program their junior year. Last year, 89% of students passed the NOCTI Public Safety/Protective Services assessment, and 90% of students successfully completed the Corrections Academy.

The MOCC Public Safety program partners with Big Rapids Public Safety, the Mecosta County Sheriff's Office, Mecosta County EMS, Mecosta Consolidated Central Dispatch, the Grand Rapids Fire Department, and township fire departments. Students in the Corrections Academy and EMT program perform clinical hours and/or on-site training at one of these partner locations. Students gain leadership experience by serving as squad leaders and go on to serve their communities in the public safety field.

Excellence in Practice

2019 CTE Outstanding Programs Award

The Career and Technical Education Outstanding Program Award recognizes a successful, exemplary, state-approved career and technical education program that demonstrates outstanding outcomes, produces measurable results, and leads to documented success in employment or postsecondary education/training.

TBAISD Career-Tech Center Film and New Media Program

Visual messages bombard us daily. Learning to craft clear and specific visual messages that communicate effectively is at the heart of the Film and New Media program. Students learn to analyze, create, and tell compelling and intentional visual stories. They learn the rules and digital syntax of the profession and under what conditions to break the rules. The program fosters self-efficacy and independence, a collaborative and creative mindset, and mastery of skills and techniques through competency-based instruction. Using the latest industry technology and equipment, guided by an expert in the field, students produce real-world content that meets industry standards and expectations. CTC Film and New Media students are prepared to be leaders of the visual revolution.

The curriculum of Film and New Media (FNM) is aligned with the state program standards for Radio & Television Broadcasting Technology. Students are assessed on their ability to synthesize their learning and skills to produce high quality media that reflects industry standard quality. FNM students “freelance” for other programs throughout the Center to practice their skills, and all students develop projects for business and industry partners, awards competitions, and scholarship opportunities.

Outstanding features of the program include state-of-the-art equipment and facilities, access to and collaboration with the 23 other programs at the Center, an active and involved advisory committee, and a reputation throughout the region for producing highly skilled, dedicated students with a second-to-none work ethic. FNM students won the top prizes in a stroke awareness commercial competition sponsored by Munson Hospital. First year students swept the top three awards winning a total of \$2,200 for the program.

Wexford-Missaukee Career Technical Center Best of Both Worlds

The Computer Networking Electronics Technology (CNET) program at Wexford-Missaukee Career Technical Center (WMCTC) in Cadillac offers a fresh perspective on the traditional electronics curriculum. Eight years ago, the Electronics Technology program at the WMCTC was on the brink of closing, enrollment was stagnating, and student interest was at an all-time low. Across the hall the Computer Networking program was bursting at the seams. In a grand cross-curricular scheme, the two programs became one and the CNET program was created. It’s the best of both worlds.

The CNET curriculum covers the MDE-CTE program standards for Electrical/Electronics Equipment Installation and Repair General as well as industry standards such as CompTIA A+, CompTIA Net+, ETA AST Competencies, Fanuc Certification Program standards, OSHA Safety, and Microsoft MTA Exam 98-349.

Upon graduation from the CNET program, students have a range of employment options due to the robust curriculum, the extensive set of skills learned, and a passion for the computers and electronics fields. Local manufacturers and businesses recruit CNET students right after high school.

Many students continue to postsecondary training or education in a related career field. Students in the CNET program also have the option to participate in the Wexford-Missaukee Early College, which leads to an Associate Degree in Computer Networking from Baker College of Cadillac. Students blend the CNET program, dual enrollment coursework, and their high school curriculum which leads motivated students to completion of their associate degree at the end of the 13th year. The CNET program serves as a pipeline of skilled technicians to fill jobs within the local manufacturing and IT facilities.

Michigan ACTE Awards

ACTE Administrator of the Year

This award recognizes CTE administrators, program specialists/coordinators and other CTE personnel who have made significant contributions toward innovative, unique and effective CTE programs.

Debra Miller

Debra is the Assistant Superintendent of Secondary Programming at Kalamazoo Regional Education Service Agency. Deb began her career as a Business/Accounting/Computer Programming instructor before moving to KRESA as a Student Service administrator. In 2015, she was promoted to her current role as Assistant Superintendent. During her career, Deb has been instrumental in promoting, developing and implementing career and technical education programming for students across the state. Deb was the grant director of an Algebra II Curriculum Integration grant which provided flexibility for school districts to offer students the ability to fulfill the Algebra II graduation requirement through curriculum integration in the EMIT pathway. Deb was the leading factor in building KRESA's Early Middle College Program which includes 354 students from 9 local school districts. She has served on numerous state and regional committees including the CEPD Executive Board, the MI ACTE Executive Board, the Marshall Plan for Talent for Southwest Michigan, the state Added Cost Referent group, and Teacher Certification Committee. Her statewide presence allows her to be one of the first to implement innovative practices while guiding and assisting her peers in the same.

In addition to these duties she oversees the regions Education for the Arts program and Youth Opportunities Unlimited program.

Deb's leadership skills demonstrate her ability to empower her staff to flourish. Her innovative practices, knowledge of CTE, competency, integrity, and caring heart make her an outstanding educator, administrator, and person.

ACTE New CTE Teacher of the Year

This award recognizes new CTE teachers who have made significant contributions toward innovative and unique career and technical education programs and shown a professional commitment early in their careers.

Savannah Devries

Michigan's ACTE New Teacher of the Year for 2019 is Savannah Devries, CTE Introduction to Nursing and Healthcare Teacher at St. Joseph Public Schools and Allied Health Instructor at Lakeshore High School in Stevensville. Devries is a highly driven nursing professional with a unique combination of experience and skills needed to motivate students and strengthen CTE Health Science Education.

Devries has restarted the HOSA Club. The students plan to attend HOSA events and compete this year. Savannah takes her students on work-based learning trips to PACE (Program for All-Inclusive Care for the Elderly). Devries is actively designing a 2nd year course for her Allied Health class, hoping to turn out students with phlebotomy and Medical Assisting credentials.

Devries has coordinated a "St. Joe Boo the Flu" event with CTE students and professionals from Spectrum Lakeland Hospital. Savannah helped design and set-up a brand new healthcare lab backed by funding from the St. Joseph Public Schools Foundation and CTE funding.

Devries is an effective leader in her county Health advisory group. She is securing partnerships with Spectrum Lakeland Health and has received multiple donations for her CTE program from the hospital. Savannah is also budget savvy and innovative. For example, instead of paying for certifications for students to earn CPR/First Aid credentials, she has offered to become trained and in turn train her students as well as district staff and coaches.

Savannah Devries is helping to inspire the next generation of medical professionals with her well-rounded industry experiences in the healthcare field.

Michigan ACTE Awards

ACTE Career Guidance Award

This award is given in recognition of school counselors and career development professionals who have made significant contributions to advocate, educate and communicate the value of CTE as a viable career option to a variety of audiences in their communities.

Camille Greening

Michigan's ACTE Career Guidance Award recipient for 2019 is Camille Greening, Career and Technical Education Counselor for Mount Pleasant Public Schools Gratiot-Isabella Technical Education Center. Camille is a positive support to the students and teachers in the GI-TEC Mt. Pleasant Center. She has developed a rotating career/success poster program where she has displayed different messages in every program classroom in the center. Every two weeks she rotates the posters which gives her the opportunity to build relationships and talk with each class about careers and paths to success. Camille helps seek out and manage work based learning activities for students. Last year over 3/4 of the center's students were involved with a program specific work based learning opportunity. Greening coordinates and facilitates the Career Cruising program to all 9th -10th graders at the largest high school in the consortium. Camille works closely with the Central Michigan Manufacturing Association, along with many other employers, to help lead the development of the GI-TEC Career Day. She has fostered relationships with businesses by participating in "Educator to Industry Tours", Business Open House, and Career Nights.

In addition to all of the efforts to promote and support CTE, Camille also serves as a personal counselor to students. She meets with students for a myriad of personal issues and helps students overcome barriers that stand in the way of their success.

Greening is a highly respected educator and promoter of CTE. She demonstrates this strength with counseling colleagues, administrators, and especially with students. Her great working relationship with area employers is evident by their willingness to support CTE programs.

ACTE Teacher of the Year

This award recognizes the finest CTE teachers at the secondary school level who have demonstrated innovation in the classroom, commitment to their students and dedication to the improvement of CTE in their institutions and communities.

Tom Lowe

Calhoun Area Career Center's Trade and Industrial Education teacher, Tom Lowe, is Michigan's ACTE Teacher of the Year for 2019. Tom has worked to align the curriculum of the Automotive Service Technology (AST) program to NATEF and State standards. Tom has developed and integrated work ready practices necessary to be a successful employee, and fundamental literacy in math, reading, writing, and communication. Lowe uses book studies and reflections, the development of program specific math content that ties directly to the technical work the students do, and project based learning to help students connect the theoretical learning with the real world application inherent in meaningful projects. Some of those teaching strategies include Kagan cooperative learning as well as other methods of differentiated instruction to fully engage his students. The use of technology in instruction is necessary in the automotive field. Tom's support of technology is evident in his classroom and lab and is seamlessly integrated into his automotive curriculum.

A leader for the center, Tom serves on the CACC School Improvement Team. He is a change agent, very open to new ideas and implements them to the fullest. He has modeled instructional strategies and classroom management techniques to staff through professional development presentations and professional learning communities. Lowe has organized an annual car show, which takes place at the CACC. His only motivation for heading this event is to help promote the CACC in the community. Last year Tom was able to secure direct articulation for his students with Glenn Oaks Community College.

A student is quoted as saying, "Mr. Lowe teaches me life lessons, not just automotive."

Acknowledgements

The Office of Career and Technical Education, Michigan Department of Education (MDE), would like to thank the planning committee, technical assistance staff, presenters, and monitors for their hard work, which has made this conference possible. The success of this conference is due to their efforts and the efforts of many others behind the scenes.

Personal Schedule

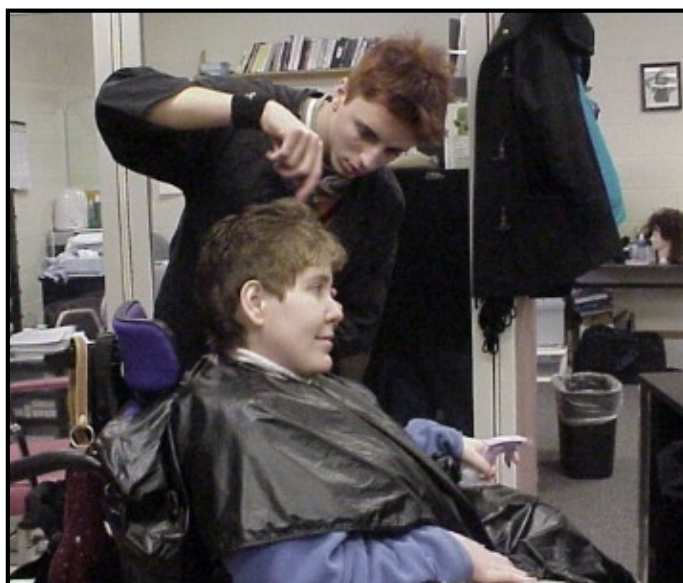

Use this page to help pre-select sessions.
Write in your top choices in the corresponding sections below.

Monday, January 28, 2019

Time/Session	Selection 1	Location	Selection 2	Location
11:00 am – 12:00 pm Session A				
1:45 pm – 2:45 pm Session B				
3:00 pm – 4:00 pm Session C				

Tuesday, January 29, 2019

Time/Session	Selection 1	Location	Selection 2	Location
8:00 am – 9:00 am Session D				
9:30 am – 10:30 am Session E				
11:00 am – 12:00 pm Session F				

Session Key

Each presentation has been assigned to a category that best represents its content and subject matter: Use the key below to find presentations that relate to the different subjects outlined. You will find these symbols on the right hand side of the presentation descriptions.

Administration Leadership Teacher Quality Evaluations	○
Business and Industry Apprenticeships Labor Market Emerging Careers	◆
Career Development Counseling Special Populations	◻
Community College Postsecondary Articulation	■
Curriculum Programs of Study Academic Integration Assessment	◈
Early/Middle Colleges Dual Enrollment Concurrent Enrollment	✦

SCECH Key

Use the key below to find presentations that qualify to meeting your SCECH application requirements. Symbols are provided on the right hand side of the presentation descriptions.

General SCECH	G
Counselor: College Prep	P
Counselor: Career Consultation	R
Counselor: Military	M

If you are **not** seeking to renew your School Counselor License, but attend a School Counselor categorized session you will receive General SCECH credit for the session.

Monday, January 28, 2019

Excellence in Practice Awards

Opening Session: Keynote Speaker, Dwayne D. Williams, Tier 1 Educational Coaching

Dwayne D. Williams is a school psychologist, author, and educational consultant who provides training to school districts on how to create culturally responsive social emotional learning and trauma-informed programs. Dwayne's work with trauma did not begin as a school psychologist; it began at the age of eight, when he experienced life as a homeless child. Now, as a school psychologist and interventionist, He uses his story and success to inspire children and youth who come from traumatic backgrounds. He uses his story to provide hope and to share the message that all students can become successful—no matter their background, no matter their skin color, no matter their experiences.

Dwayne is the CEO of Tier 1 Educational Coaching, an organization that helps districts adapt instructional practices to meet the cultural needs of culturally diverse learners. He is the author of 7 books, including "An RTI Guide to Improving Performance of African American Students." He has used his curriculum, "Like Music to My Ears: A Hip-Hop Approach to Addressing Social Emotional Learning and Trauma in Schools" with hundreds of students—and coaches practitioners through the process of creating groups that integrate SEL, cognitive behavioral therapy principles, and hip-hop culture. Dwayne is currently a Ph.D. student at the University of Illinois at Chicago (UIC), where he studies curriculum and instruction.

10:30 am – 11:00 am Coffee Break with Exhibitors

11:00 am – 12:00 pm SESSION A

KEY LOCATION

Teaching Career Mobility and Transferable Skills in All Classrooms

Today's students will change jobs many times, but how do we teach "career mobility"? College programs don't result in lifetime job titles, so career mobility becomes an important factor in these decisions. Interactive activities will demonstrate the links between transferable skills, academic content, the world of work, and career mobility.

Kristen Garceau, Career Instructor, Kalamazoo Valley Community College

Host: Mikki Spagnoli, Lewis Cass ISD / MI ACTE

□
G/P Berkey Room
(3rd Floor)

Creating Successful College Credit Opportunities

This session will discuss college credit opportunities for high school students available through postsecondary institutions. Topics include a review of the types of college credit, how to choose the best program to meet student academic needs, information about establishing and maintaining successful partnerships, and student success tips.

Leah Melichar, FerrisNow Outreach Coordinator, Ferris State University

DeeDee Stakley, Director of Transfer and Secondary School Partnerships, Ferris State University

Host: Melissa Springsteen, Berrien RESA

LOCATION

Teacher Certification for Career and Technical Education

This session will allow you to meet the Office of Educator Excellence contact, who collaborates with the Office of Career and Technical Education, and to receive the latest updates on certification law and rule changes, and how they affect your teacher certification.

Krista Ried, Supervisor, Office of Educator Excellence, MDE

Linda Campbell, Analyst, Office of Educator Excellence, MDE

Tom Knight, Education Consultant, Office of Career and Technical Education, MDE

Host: Pat Yanik, St. Clair County RESA

Emerald
Room B
(2nd Floor)

Credential Transparency: State Solutions

Understanding and making decisions about credentials is challenging and confusing to students, workers, veterans, employers, and policymakers. This workshop will demonstrate how Michigan's commitment to transparent credential data will improve access, increase accountability, tackle affordability, and meet employer needs. Attendees will learn how credentials can be searched, compared, and understood in new ways that benefit the state and its workers, employers, and students, and better understand the value of committing to credential transparency.

Marcia Black-Watson, Division Administrator, SOM-TIA

Emilie Rafal, Operations and Programs Manager, Credential Engine

Host: Cliff Akujobi, Michigan Talent Investment Agency

Ballroom
(1st Floor)

Evidence-Based Instruction in Allied Health

There is value in delivering instruction around cross-curricular proficiency targets and using student evidence to assess learning. Participants will learn how to use proficiency targets to offer relevant, meaningful feedback to students, purposeful lesson planning, and how to use student feedback to build lessons that address gaps in student learning. The allied health team will discuss the evidence-based practices they use and the proficiency targets developed which shape the instruction to integrate the skills of ELA and AH content, how their practice is aligned. Hear how the practice is aligned to move toward student ownership, and the way students are responding to content and feedback.

Larissa VanderZee, Teacher, TBAISD Career-Tech Center

Katie Swisher, Program Instructor, TBAISD Career-Tech Center

Host: Jason Evers, Wayne RESA

Governors

Ballroom
(1st Floor)

11:00 am – 12:00 pm	SESSION A, CONTINUED	KEY	LOCATION
Connecting Students/Parents/Educators to Business Partners This session will share best practices developed by the Gratiot-Isabella RESD and Central Michigan Manufacturing Association to connect students, parents, and educators to business partners. Participants will learn about Student and Parent Career Nights, and Educator to Industry Tours that promote exposure and understanding of skill trades opportunities. Learn how to organize events so they are smooth and effective. Douglas Bush, Associate Superintendent for CTE, Gratiot-Isabella RESD Angie Wood, Vice President, J. Ranck Electric Host: Tara Bride, Office of Career and Technical Education, MDE		◆ G/R	Kendall Room (3 rd Floor)
Igniting Career Awareness and Curiosity in Young Learners: The Value of Early Exposure to the World of Work Fun, engaging career awareness programs for young students establish the foundation for a bright future. Darin Newell will lead a conversation about Kuder Galaxy, a system aligned to ASCA standards, inclusive of I Statements, developed by experts, and scalable so students can carry knowledge into middle and high school. Darin Newell, Regional Business Development Partner, Kuder, Inc. Host: Robert Smith, Van Buren Tech		◆ G	Nelson Room (2 nd Floor)
Hands-on "Internet of Things" for Beginners Will your students ride the next wave of technology – connecting things? Join this session to experience the basics of Raspberry Pi, Python, and IoT. You'll construct an IoT Greenhouse, making it smart using sensors, actuators, and "the cloud". Teams enter code, run, and test. Participation is limited to 30. Keith E. Kelly, Program Coordinator Robotics and Automation, Northwestern Michigan College Host: Dorene Hughey, Calhoun ISD		◆ G/R	Pantlind Ballroom (2 nd Floor)
Academics and Agriscience: A Model for Integrated Team Teaching The FFA Broiler Chicken project presents an opportunity to team teach. Learn how three teachers each owned a piece of the project to embed academic standards into the Agriscience curriculum to deliver real-world instruction. Teachers will share materials and walk participants through planning as a model for other CTE units. Brian Matchett, Instructor, TBAISD Career-Tech Center Taffetta Gle, Teacher, TBAISD Career-Tech Center Jessie Fyock, Teacher, TBAISD Career-Tech Center Host: Tommy Cameron, St. Joseph County ISD		◆ G	Pearl Room (2 nd Floor)
Mentoring the Minuth Way Mentors are everywhere – people in your field of work or role models in your everyday life that model the type of behavior you desire to embody. Branden Minuth believes we mirror behaviors of people around us, which is why it is so important to surround ourselves with the right people. Branden Minuth, U.S. Navy Seals Host: Cindy Philip, Van Buren Tech		◆ G	Ruby Room (2 nd Floor)
Kahoot and Technology Processing Tools - Expanded Kahoot and other technology processing tools can turn a classroom into an active student-centered workshop classroom. This session will show you how to use the expanded functionality of Kahoot and review a variety of expanded applications within the CTE curriculum. The use of these tools can make learning both meaningful and fun at low-cost. Mike Ennis, Professor, Ferris State University Host: Jenny Heath, LISD Tech Center		◆ G	Thornapple Room (3 rd Floor)
Total Talent: Build the Talent Base Needed for Economic Growth and Opportunity The Michigan Higher Education Attainment Roundtable (MIHEART), a coalition of colleges, universities, K-12 and business and government leaders convened by the Michigan College Access Network (MCAN), will share it's "Total Talent" report – a blueprint for state action – equipping all Michiganders with the education and skills needed for success in the economy of today and tomorrow. John Austin, Director, Michigan Economic Center Brandy Johnson, Executive Director, Michigan College Access Network Host: Linda Blankenship, Allegan County Area Technical and Education Center		◆ G	Senator Vandenberg Room A (2 nd Floor)

General Session Lunch MI ACTE Awards: Mikki Spagnoli, President, MI ACTE			
12:00 pm – 1:30 pm	Welcome: Scott Koenigsnecht, Ph.D., Deputy Superintendent, P-20 System and Student Transitions, MDE Mid-Day Session: Keynote Speaker, Brian L. Pyles, Ph.D., Director, Office of Career and Technical Education, MDE Session Title: <i>Career and Technical Education in Michigan</i>		Ambassador Ballroom (2 nd Floor)
<div>  <p>Dr. Brian L. Pyles is the State Director for the Office of Career and Technical Education (CTE) in the Michigan Department of Education. As Director, Dr. Pyles' primary role is to provide state leadership for secondary and postsecondary CTE programs. In this capacity, Brian works closely with other Office Directors, the MDE Leadership Team, as well as other state agencies, representing CTE in developing and implementing policy decisions that impact CTE programs in Michigan. Dr. Pyles works closely with the CTE State Director's Association, Advance CTE, providing input at the national level regarding policy implementation and impact of decisions on the state.</p> <p>Brian's background includes 25 years in the Michigan Public School system serving as a Marketing Teacher, DECA Advisor, Business Department Chair at Niles Senior High School, and as a Regional CTE Director in Shiawassee and Berrien Counties. Through Brian's ability to collaborate, he led the development of the Berrien County Early Middle College and the Genesee County Career and Technical Education Early Middle College.</p> <p>Brian's passion for CTE began with his experience as a CTE student in the Agriscience Program at the Oakland Schools Technical Campus in Clarkston, Michigan. Throughout his career, Brian has been an active leader, serving on various committees with the Michigan Department of Education and as President for the Michigan Association for Career and Technical Education (MI ACTE) and the Michigan Marketing Educators. Brian has also served as an independent education consultant where he developed education web content for the MI ACTE and wrote guidance for the Southern Regional Education Board for the implementation of work-based learning and student career planning.</p> <p>Dr. Pyles has a Bachelor Degree of Business Education from Eastern Michigan University, and an MA and Ph.D. in Education Leadership from Western Michigan University. His dissertation research "A Study of Career Preparation Activities Used in Michigan's High Schools" reflects his commitment to CTE learning opportunities for students.</p> </div>

Where the Rubber Hits the Road to College and Career Success			
Learn how one CTE center is working with high school junior and senior students in regards to pre- and post graduation planning to make sure they are both college & career ready. Participants will learn what students are accomplishing in 11th grade: completing internet assessments, doing career choice research, discuss ways to get authentic job/career exposure and experience and plan summer college/university trips. In 12th grade it becomes a post-graduation plan which includes logging their college/university exploration activities, job/career exposures, college application steps, FAFSA application activities, scholarship/funding applications, etc.		□ G/R	Haldane Room (3 rd Floor)
Lindy Daman, College & Career Specialist, Ingham ISD/Wilson Talent Center Host: Margo Hazelman, Eaton RESA Career Preparation Center			
Opportunities for JROTC Today			
Join colleagues from around the state to learn Best Practice activities and information for JROTC students. This session will have open discussion on the opportunities available for students enrolled in CIP Code 28.0301 Army/JROTC.		□ G/M	Heritage Hill Room (3 rd Floor)
Sara Horace, CIV US Army, United States Army Host: Jennifer Branch, Clinton County RESA			
Understanding the New Energy Cluster Framework - Get into Energy Michigan!			
Michigan Energy Workforce Development Consortia will share the proposed new energy cluster framework identifying six career pathways within an approved energy program. Each pathway provides broad technical standards to help students build competency-based skills. The approach also allows the opportunity to develop a stackable credential at the secondary level.		◆ G/P	Imperial Ballroom (1 st Floor)
Deborah Majeski, Manager – Workforce Development, DTE Energy Amber Fogarty, Energy Talent Pipeline Specialist, Consumers Energy Host: Michelle Radcliffe, Livingston Educational Service Agency			
Automotive Round Table Discussion			
Round table opportunity for automotive instructors to connect. This will not be a formal presentation, but an open forum to share best practices and guidance from peers.		❖ G	Kendall Room (3 rd Floor)
Jennifer LaDuke, Automotive Roundtable, Monroe ISD Host: Cliff Akujobi, Michigan Talent Investment Agency			
School Counselor Professional Development Law, Requirements, Credentialing, and Placement Matters			
School Counselors aid in the success of students therefore they need to remain abreast of college, career, and military options to enhance consultations and the guidance they provide to students. This session will discuss MCL 380.1233 (7-9), the school counselor professional development law, requirements, credentialing, and appropriate placement issues.		□ G/R	Nelson Room (3 rd Floor)
Beatrice Harrison, Higher Education Consultant, Michigan Department of Education Host: Dorene Hughey, Calhoun Intermediate School District			
Hands-on Python Programming for Beginners			
This session is a follow-up to the Hands-on "Internet of Things" session. Teams will develop additional Python coding solutions using the IoT Greenhouse. You'll investigate a simple algorithm, code using Python, and test on a Raspberry Pi. Attending the first Hands-on "Internet of Things" session is not required.		◆ G/R	Pantlind Ballroom (2 nd Floor)
Keith E. Kelly, Program Coordinator Robotics and Automation, Northwestern Michigan College Host: Cindy Philip, Van Buren Tech			
Intellectual Property Rights of K-12 Students			
Creativity and innovation are cornerstones of education resulting in new ideas, processes, and products. However, schools often fail to recognize that students have ownership rights in the intellectual property they create. This session will discuss these legal rights, and processes to protect both the rights of students and educators.		○ G	Pearl Room (2 nd Floor)
Konnie Kustron, Professor, Eastern Michigan University Frank Norton, Assistant Director, Eastern Michigan University Host: Beverly Brown, Office of Career and Technical Education, MDE

Gearing Up for Pathways - Rallying Your Community to Promote Professional Trades

Join this session to learn how one LCAN was inspired to recreate and publish a new career pathway resource in its community with hopes of boosting enrollment in local CTE programs. Presenters will discuss trends in CTE, utilizing professional networks and engaging businesses to execute one's own pathway publication resource. Learn how to stay innovative to capture the attention of varied learners with urgent needs, collaborate to build momentum by merging creative ideas and approaches, and be motivated by the urgency of equipping our youth and adult learners with college degrees, certificates and other credentials to meet the demands of the workforce.

Terry Burleson, Program Manager, Battle Creek College Access Network

Laura Zalle, Program Officer, Battle Creek College Access Network

Developing Cultural Agility to Identify Learner Talent

Self-awareness, including identification of one's cultural identity and implicit biases, is key to engaging learners and recognizing learner talents. Often, unhelpful social narratives become reality for educator perception and learner self-perception, resulting in talent not recognized and contributing to learner disengagement, discouragement, and lack of pursuit of career exploration. This session will include a variety of engaging hands-on activities and some lectures to guide participants through definitions of cultural encapsulation, cultural engagement, cultural agility, implicit biases, unhelpful social narratives and the impact on identifying learner talent and engagement for career exploration.

Closing Session - Keynote Speaker: Brooks Harper, Brooks Harper Enterprises		

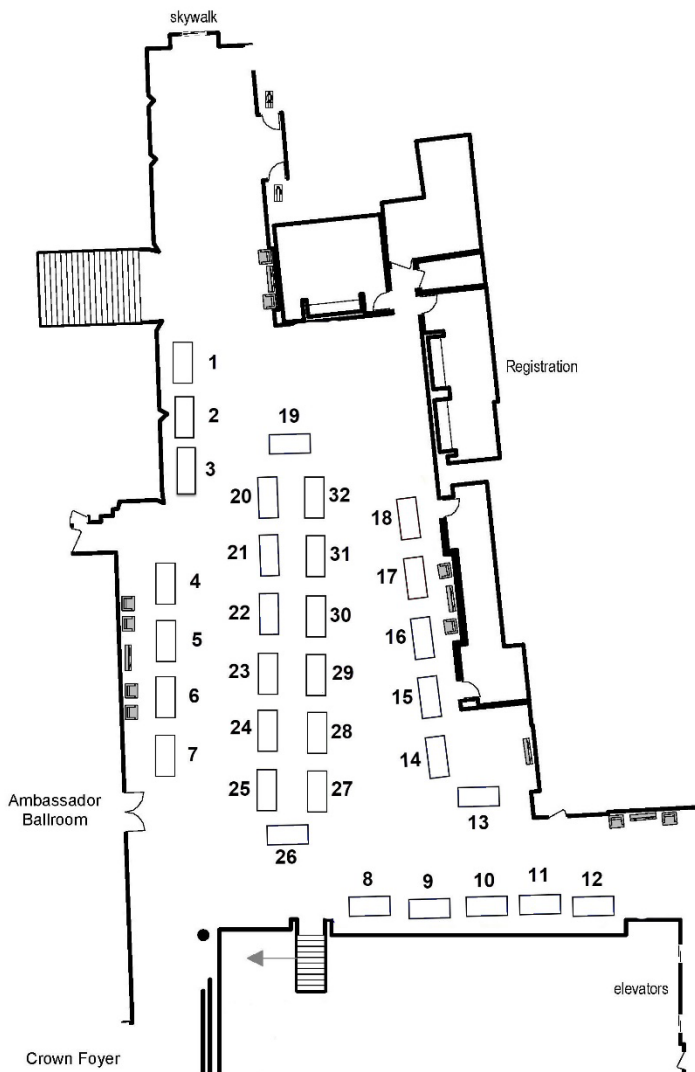

Brooks Harper is the premier College and Career Readiness and Soft Skills Speaker in America! He provides Keynotes, Workshops, and Training Material for students and professionals helping them discover, develop, market and sell their talents, skills and abilities that bring tangible value to the market place. He connects-the-dots between today's decisions and tomorrow's college and career options. Brooks draws from 15 years of leadership experience in Corporate America to invest in and inspire our current and future workforce!

"If you could write your own job description, what would it be?" This was a life changing question for Brooks. Years before he became an Author and one of the most sought after Career Speakers in the country, he worked in Customer Service, Sales, and Management with four publicly traded companies. He made a great living while gaining valuable experience, yet his career lacked fulfillment. Every Sunday afternoon he would get a sick feeling in his chest. It was anxiety from dreading work on Monday. Brooks set out on a journey to turn his passion for helping others into a paycheck. He went on so many interviews it became, for him, an extreme sport! Then he was asked a simple but soul searching question: If you could write your own job description, what would it be?

Carl D. Perkins Grant

A partnership between the Talent Investment Agency (TIA), twenty-eight community colleges, three public universities, and one tribal college in Michigan to provide technical assistance for Carl D. Perkins Career and Technical Education grants. The mission is to promote access to, retention in, and completion of individual student goals in quality and comprehensive career and technical post-secondary education. The program allocates federal funds and provides technical assistance to:

- Develop new occupational programs
- Improve career guidance & counseling activities
- Upgrade the skills & competencies of occupational education faculty & staff
- Improve accountability measures
- Improve the transition of students between secondary, community colleges, four-year institutions & the work place

Co-sponsorship of a conference by the Michigan Department of Education assumes the active participation of Department of Education staff in planning and development of the agenda. No person shall be denied the opportunity to participate on the basis of race, color, religion, national origin or ancestry, age, sex, gender, height, weight, marital status, or disability. The conference facility must meet federal and state accessibility standards. Commercial products or services displayed or presented as a part of the conference are not considered endorsed by the State Board of Education and the Michigan Department of Education.
